LEADERS FOR OVER 50 YEARS IN THE ELECTRICAL FIELD FOR THE PRODUCTION OF TERMINALS & LUGS! A PHILOSOFY FOCUSED ON

PROFESSIONALISM
INNOVATION
PASSION
QUALITY
RESEARCH

Has lead EGI to reach and surpass
the goal of **50 years** of activity constantly
maintaining the leadership in the sector.

Thank You!

2020 and 2021 were very challenging years from an health point of view, with a significant economic and social impact both at a private and working level in Italy and in all over the world. 2022 has not started in the best way...raw materials market has been put to the test by the economic situation generated first by the pandemic and then by the war, with a surge of the raw material prices that shows no sign of abating, generating instability, confusion and increased costs throughout the supply chain up to finished products. In addition to this situation there are the scarce availability of raw materials and long delivery time of the same.

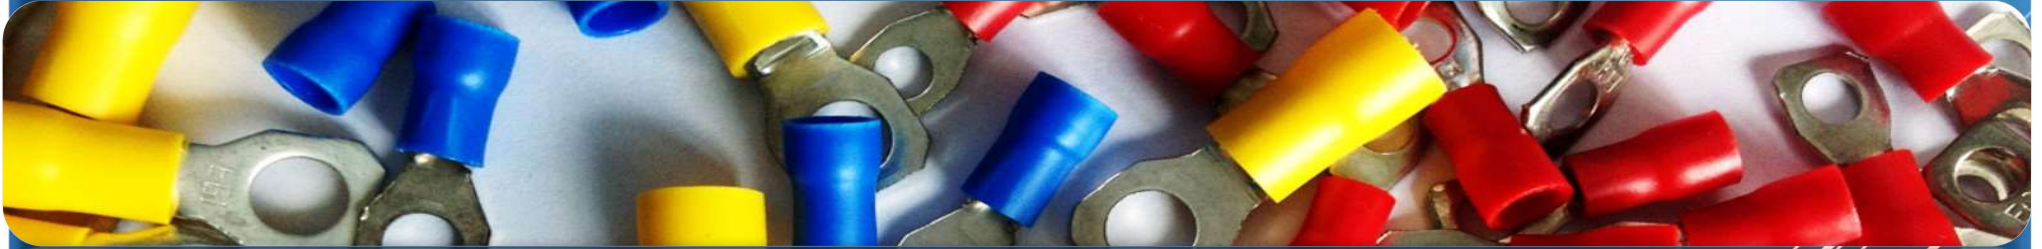

The end of 2022 and the beginning of 2023 are instead focused on the energy crisis that has significantly increased all managing costs.

IN THIS NOT VERY REASSURING SCENARIO IN WHICH THE SIGNS OF RECOVERY SEEM VERY FAR AWAY, WE ARE PROUD TO SAY THAT EGI HAS NEVER STOPPED AND DESPITE DIFFICULTIES WE HAVE ALWAYS MANAGED TO SATISFY THE REQUESTS OF ALL OUR CUSTOMERS.

FOR THIS REASON WE WANT TO THANK AND RENEW OUR ESTEEM TO ALL THOSE WHO HAVE CHOSEN US AND WHO CONTINUE TO PLACE THEIR TRUST IN US DAY BY DAY IN ORDER TO OVERCOME DIFFICULTIES OF THIS PERIOD AND REACH NEW GOALS TOGETHER.
